EDUCATION

Purdue University, Mitch Daniels School of Business

Bachelor of Science, Supply Chain & Operations Management

Dec 2026

West Lafayette, IN

- **Coursework:** Project Management, Supply Chain Analytics, Logistics Concepts & Models, Strategic Sourcing & Procurement, Manufacturing Strategy, Predictive Analytics, Data Mining, Management Science

Purdue University, Mitch Daniels School of Business

Bachelor of Science, General Management

Dec 2026

West Lafayette, IN

- **Coursework:** Project Management, Supply Chain Analytics, Logistics Concepts & Models, Strategic Sourcing & Procurement, Manufacturing Strategy, Predictive Analytics, Data Mining, Management Science

STUDY ABROAD

Universidad Carlos III de Madrid

Madrid, Spain

Study Abroad Intercultural Learning Scholarship

Spring 2025

* Conducted research on supply chain systems, comparing operational practices between Spain and the U.S.

* Analyzed cross-cultural differences in workforce dynamics and their impact on efficiency and management approaches.

EXPERIENCE

Michelin Tires | *Supply Chain Intern*

May 2026 - Aug 2026

- Developed an Excel-based tactical planning tool that integrated demand forecasts, capacity requirements, and operational constraints, enabling scenario analysis and more informed 18-month production decisions at Michelin's largest North American manufacturing plant.
- Evaluated production capacity, demand forecasts, and resource limitations to identify supply risks, improve planning visibility, and support proactive manufacturing allocation decisions.
- Collaborated with Supply Chain, Manufacturing, and Operations teams to develop Power BI dashboards mapping end-to-end processes, identify production bottlenecks, and drive improvements in plant performance.

Chick-fil-A | *Back of House Team Member – Procurement and Inventory Management*

Nov 2023 - Dec 2025

- Managed daily inventory orders \$3,000–\$9,000 using demand-based forecasting, optimizing stock levels, reducing waste, and maintaining accurate product availability.
- Trained and onboarded more than 9 employees on standardized operating procedures and food safety protocols, improving process consistency and operational efficiency.
- Demonstrated proficiency across 10+ back-of-house stations, supporting workflow optimization, bottleneck reduction, and continuous operations in a fast-paced environment serving more than 150 customers/ hour.

Brock Wilson Center for Women in Business | *Community, Engagement, and Belonging Committee Director*

Sep 2023 - May 2026

- Collaborated with a 6-member committee to plan and execute campus engagement initiatives that fostered inclusion, strengthened community connections, and reached 300+ students and staff.
- Independently organized and led select events, creating welcoming spaces that encouraged student participation, engagement, and a stronger sense of belonging within the campus community.
- Mentored a first-year Supply Chain & Operations Management student, providing academic and personal guidance that supported a smoother transition into college life and increased confidence in navigating the program.

PROJECTS

Celsius Distribution Case | *PepsiCo*

Jan 2026 - May 2026

- Collaborated in a team of 5 to design a cost-efficient distribution network for Celsius, leveraging advanced Excel modeling to develop demand forecasts and financial projections, analyzed production capacity and sourcing trade-offs to optimize network decisions, achieving \$20 million in projected profitability.

Facility Analysis | *Starbucks Coffee*

Jan 2026 - May 2026

- Led a team of 6 to analyze store operations using flowcharts, process analysis, and wait-time analysis. Identified bottlenecks and applied queuing theory and workflow optimization to recommend improvements that increased throughput, enhanced resource utilization, and improved customer service levels.

Black and Gold Country Club

Aug 2024 - Dec 2025

- Collaborated with a team of three to construct a budget model in Excel for a new country club. Utilized Power Query for efficient data preparation, and XLOOKUP/VLOOKUP for dynamic data integration. Implemented Scenario Manager and applied equations for data analysis, projecting costs and revenues with insights presented through tables and charts.

Skills

- **Skills:** Adaptability, SQL, Intercultural Communication, Power BI, Microsoft Suite, Power Query, Data Analytics, Microsoft Office, Data Analysis, Inventory Management, Supply Chain Management, Supply Chain, Procurement, Vendor Management, Financial Modeling, Financial Analysis, Quantitative Analysis, Microsoft Office Suite, Python, PowerPoint, Canva, Google Workspace, Business Development

Languages

- Spanish(Native)
